AI DIAGNOSTIC SUMMARY

Based on the user's symptoms and medical history, including chest pain, cough, breathlessness, nausea, vomiting, dizziness, and known peanut allergy, the risk level is **CRITICAL**.

Scan to verify

CLINICAL RECOMMENDATIONS

URGENT

1

Seek immediate medical attention by calling emergency services (e.g., 911) or going to the nearest emergency department right away. Inform the medical team about the peanut allergy and any other relevant health information.
